

Pavel Bukengolts

Principal Product Designer | Accessibility | Design Systems | Human-Centered AI
+1-615-866-2369 • pavel@ux.business • Nashville, TN • [linkedin.com/in/pavelbukengolts](https://www.linkedin.com/in/pavelbukengolts) • pavel.ux.business

Summary

Principal Product Designer with 10+ years of experience shaping complex enterprise products, simplifying workflow-heavy experiences, and turning ambiguous requirements into usable, scalable outcomes. Expert at bridging high-fidelity design with platform architecture (Sitecore/AEM, Storybook) and WCAG 2.2 accessibility. Proven track record of shipping 0-to-1 products and designing deep workflow experiences that reduce engineering overhead and improve platform scalability.

Selected Impact

- 0-to-1 Product Delivery: Designed and shipped the Team Capability Engine (TCE) MVP in under 90 days, owning the end-to-end UX, core workflows, data model, and high-fidelity prototyping. Used AI-assisted coding to accelerate execution and secure 3 beta pilots.
- System Architecture: Built and governed a global design system for 800+ digital properties, reducing production time by 40% through tokenized component logic and automated documentation.
- Enterprise Modernization: Unified fragmented experiences across 70+ web properties, reducing developer dependency by 60% by standardizing core interaction patterns and headless UI components.
- Process Engineering: Reduced client design-to-delivery timelines by 60% by operationalizing agentic AI workflows for research synthesis and rapid prototyping.

Professional Experience

Principal Product Designer & Strategist

UX Design Lab, LLC | *Nashville, TN*

04/2024 – Present

- Own the end-to-end execution of enterprise product interfaces, translating multi-layered business requirements into logic-driven user flows and high-fidelity interactive prototypes.
- Built and deployed custom AI agents to automate data-heavy research synthesis, enabling faster iteration cycles and more accurate prioritization of product features.
- Designed reusable interaction frameworks and component libraries for enterprise clients, focusing on token-driven flexibility and WCAG 2.2 compliance at the component level.

Lead, Enterprise Design Operations & Strategy

Abbott | *Remote*

01/2022 – 04/2024

- Embedded accessibility into the design system architecture, component rules, and review workflow, improving shipped experience quality across global products and reducing critical WCAG defects by 18%.
- Architected the file structure and component logic for a new multi-brand design system; personally built the core libraries to support distinct branding across international markets.
- Developed the organizational strategy for reusing Figma assets across brand-specific files, utilizing Figma Variables to maintain 100% visual coherence while allowing for brand-level overrides.
- Directed the technical integration of Figma components with Storybook and AEM, ensuring high-fidelity handoffs and reducing production time by 40% and vendor dependency costs by 50%.

VP, User Experience and Web Management

Protective Life | *Remote*

01/2020 – 11/2021

- Reframed the experience architecture for 70+ legacy web properties into a single, cohesive multi-brand system, managing complex state logic and financial workflows.
- Personally built complex, data-driven prototypes to validate insurance product logic with executive stakeholders, helping reduce post-launch support burden through clearer workflows and earlier alignment.
- Designed and documented a library of 50+ core components, moving the organization from bespoke page-building to a modular, system-first delivery model.

Director of User Experience

DePalma Studios | *Nashville, TN*

10/2017 – 01/2020

- Served as the lead designer for high-stakes healthcare and fintech projects, delivering high-fidelity prototypes and service maps that increased user engagement by 30%.
- Overhauled the delivery pipeline using Lean UX principles, increasing team execution velocity by 25% through standardized handoff assets and design tokens.

Senior HCI Engineer (Principal UX Designer)

Sitecore Inc. – Platform Innovation and Engineering | *Remote*

04.2013 – 08.2017

- Served as the principal design lead for advanced marketing applications within Sitecore's innovation group, shaping personalization tools that increased user adoption by 30%.
- Designed the core UX architecture and interaction models for a large-scale platform proof of concept, establishing foundational design rules used by visual design and engineering teams.
- Worked across product, engineering, and design stakeholders to turn emerging platform concepts into usable, scalable product experiences.

Skills

- **Product Design:** Interaction Design, Information Architecture, Workflow Design, Prototyping, Usability Testing, Stakeholder Alignment, Design Reviews.
- **Systems & Accessibility:** Design Tokens, Figma Variables, Component Logic, Multi-brand Systems, WCAG 2.2, Inclusive Design, Screen Reader Testing.
- **Platforms & Tools:** Figma, Storybook, Adobe Experience Manager (AEM), Miro, UserTesting, Jira/Confluence.
- **AI-Enhanced Execution:** Agentic Workflows, Prompt Engineering, AI-Assisted Prototyping (Claude, GPT-4, Cursor).

Recognition

- Top 3 Finalist, Tech Educator of the Year, Greater Nashville Technology Council Awards
- Top 100 World's Most Influential Mentors, ADPList
- Contributing Author, UX Magazine, published articles on UX strategy, AI-enhanced workflows, accessibility, and design systems
- Adjunct Professor of UX, UI & AI, Nossi College of Art & Design

Education

- Computer and Digital Communication Science | Master of Science
Belarus State University of Informatics and Electronics
Focus: Human Factors, Ergonomics
- Graphic Design | Bachelor of Arts
- School of Visual Arts
